

## **Malvern Way Infant & Nursery School**

### **PE and Sport Funding Programme 2014-2015**

At Malvern Way we have been using our Sports Premium to improve the quality of sport and PE for all of our children. We aim to provide new opportunities for children to develop and learn new skills within our school with the option to further these skills outside of curriculum time.

The Sports Premium will be spent in accordance to the impact that it has on PE and sport at our school.

Listed below is our action plan and coverage of Sports Premium so far:

#### **Equipment:**

- Purchase of basketball posts outside on the playground for children to use at free time and during games lessons.
- New footballs for football club. A range of footballs purchased to ensure that children have access to a variety of balls to use.
- Table tennis equipment.
- Court area markers.
- Balance bikes.
- Orienteering: Stage 1 of walking around the site.

#### **Impact on pupils' Physical Education and Sports participation**

Basketball posts will provide as a great resource for children to use during PE lessons as well as playtimes. Children will be able to practice their skills from their games lessons and put those skills in place during their free time. The posts have been used daily and children have had free choice to use them during lunchtimes and playtimes.

New footballs for football club will give children a variety of balls to use and practice their skills with. The variety of ball choice will ensure that children will have access to a range of balls.

Table tennis resources to lead into new club during lunchtime. Children will be able to learn new skills and have access to new resources. The club will ensure that more club choice will be available for children to access and encourage more participation in clubs. Need to address the club situation.

Introduce the equipment to the rest of the staff to use during GT.

Balance bikes have been purchased to focus on core body development with the children. They will be taught how to keep balance and stay safe when riding a balance bike. Balance bikes have been moved and are now accessible for children to use on a regular basis.

#### **Clubs:**

We have introduced some new clubs to enable more children to participate in a variety of additional clubs and learn new skills:

- Football club.

Also to maintain:

- Game On (multi-sports).

### **Impact on pupils' Physical Education and Sports participation**

Children have opportunities to participate in a range of clubs that will appeal to individual preferences. With more variety on offer this will hopefully encourage those children who do not participate in sporting activities to take part in a distinctive activity.

Game On Multi sports club now has higher number of children participating. The club caters for year 1 and 2 children through a variety of sport (including athletics, basketball and team games).

Football club is now taken place for second half of summer term. The focus of the club was towards children from a vulnerable group who do not participate in sport at school. Aim was to increase participation and monitor the impact it has on learning.

Street dance in spring 2016.

Football club to continue again in 2015.

Introduce Play Rangers during lunchtimes – develop this into afterschool during the summer term to encourage adults to play games with their children.

### **School Sports Partnership (SSP):**

Each year Malvern Way creates links with other schools within the sports partnership to take part in competitive sport in a range of environments. The SSP provide training days, network mornings and specialist PE leaders for schools within family clusters.

Through the SSP we will be able to participate in:

- Year 2 Dance festival.
- Multi skills competitions.
- Play Buddy training.
- Year 2 indoor athletics.
- Year 2 Key Steps Gymnastics competition.

The SSP also offers time for leaders to visit Malvern Way and provides our children with a range of multi-sport activities. This enables staff, particularly NQTs, to observe and assess their children more closely during physical activity. It has also provided staff with games ideas that they could use in their PE sessions.

Development of Intra School competition. Arrange times for Play events coordinators to come into school to lead competitions between colour groups in each class. 3 sessions per year. This will also provide teachers with ideas to use for their own OAA.

### **Impact on pupils' Physical Education and Sports participation**

Children have opportunities to participate in more competitive sport with other schools.

Year 2 dance festival enables children to watch and observe high level dances by year 4 children during rehearsal time and performance evenings.

Play buddy training provides children with leadership responsibilities and opportunities to lead games activities with younger children in our school. Children also learn new games to play with their peers. 11 year 2 children represented Malvern Way at our first Athletics competition and won the event by competing against 9 other schools in the partnership.

6 of our KS1 children participated in KS1 Gymnastics event in April 2015. This was the first time that 5 of the 6 children had experienced a competitive sport.

### **Professional development:**

Professional development ensures that staff at Malvern Way has access to high quality PE teaching and learning ideas. To date, the following courses have been attended:

- Ofsted: What does Outstanding PE look like?"
- Improving Outdoor Adventurous Activities (OAA) - OAA Outdoor Learning cards INSET.
- Malvern Way School Sports Leader to have non-contact time in order to plan and prepare intra-school and inter-school competitions

### **Impact on pupils' Physical Education and Sports participation**

Staff has access to high quality teaching and learning sources and are implementing them into PE lessons. School is aware of what 'Outstanding' PE looks like and are ensuring that PE is outstanding at Malvern Way. **Subject monitoring has ensured that PE teaching and learning still remains outstanding at Malvern Way.**

OAA activities will build on our 2 hours of physical activity each week. Alongside our Learning Outside of the Classroom (LOtC) focus, children are more active during their curriculum time and have been encouraged to lead a healthy lifestyle as well as opportunities to learn new skills.

Intra and Inter competitions will allow children to take part in more competitive physical activities throughout the school year. Children will develop the skills of competition, collaboration, resilience and be able to represent themselves and their school in different events.

### **Membership of The Youth Sports Trust:**

The Youth Sport Trust (YST) is an organisation which offers a range of support for those working in education and school sport. The YST offer specialist training in PE and sport, resources and teaching ideas for staff to use at school. High quality teaching from specialist staff work closely with schools to increase participation in sport. Renewing our membership with the YST will enable us to have access to resources and training to enhance the quality of teaching and learning for sport and PE at Malvern Way. The YST has also enabled us to work towards a nationally recognised Sports Quality Mark.

### **Impact on pupils' Physical Education and Sports participation**

Children will be able to learn with new and current ideas and resources. High quality resources will ensure that children are fully engaged in their learning and making the most progress possible along with high quality teaching and learning supported by the YST team.

### **The funding has or will be spent as follows:**

Area of Investment	Anticipated Cost 2013-14	Actual Cost 2013-2014	Anticipated Cost 2014-15	Actual Cost 2014-2015 <b>£8653</b>	Total Cost (Over Two Years)	Anticipated Budget 2015-2016 <b>£8653</b>
